Dear Mr Prestridge

I am committed to supporting strong literacy and numeracy outcomes for all young Queenslanders.

To this end, I have received advice on the performance of all schools in the first National Assessment Program — Literacy and Numeracy (NAPLAN) tests conducted earlier this year for students in Years 3, 5, 7 and 9.

I have particularly noted your school's strong performance in these tests and commend you and your staff for your commitment to helping your students achieve high level literacy and numeracy standards.

As Premier, I believe that our education system is critical to delivering the outcomes of Tomorrow's Queensland. It is important to me that our teachers provide the highest quality education programs and open pathways for students.

As we head into the 2009 school year, I encourage you to maintain a dedicated focus on improving the literacy and numeracy outcomes for every student in your school. Leadership, good practice and committed teachers are essential if we are to improve performance and provide the opportunity for every child to realise their potential.

My congratulations to you and your staff for your efforts on behalf of your students.

Yours sincerely
